ADN CoE®

Please note that this training is a specialized procedural training provided by ADN CoE and conducted by leading experts in the field, including Assoc. Prof. Barış Akdemir, Prof. Dr. Duhan Fatih Bayrak, Prof. Dr. Emin Evren Özcan and Assoc. Prof. Oguzhan Ekrem Turan. This training is accredited by Ethical Medtech and EACCME and it is independent of any other training offered by relevant device company.

WARNING

Medical information is constantly evolving and being updated. Standard safety practices should be observed, and it should be acknowledged that changes in treatments and drug applications may be necessary in light of new research and clinical experiences. Readers are advised to verify the latest product information, dosage, administration methods, and contraindications provided by the drug's manufacturer regarding medications. Determining the best treatment and the correct drugs and dosages for each patient is the responsibility of the attending physician. The publisher and editors are not responsible for any harm or damage to patients or equipment that may arise from the use of this publication.

SVT ABLATION TRAINING

SVT Ablation Training for Interventional Cardiologists is a specialized program meticulously crafted for those seeking mastery in the intricate realm of catheter ablation techniques for Supraventricular Tachycardia (SVT). Spanning across several days, this immersive training is designed to provide interventional cardiologists with a comprehensive understanding of SVT ablation through a blend of didactic lectures, live case observations, and hands-on procedural training.

Addressing the diverse spectrum of SVT presentations, the program covers various anatomical and functional aspects contributing to supraventricular arrhythmias. While traditional approaches to managing SVT are essential, the training emphasizes the emergence of catheter ablation as a promising alternative, particularly for specific SVT cases. Participants will engage in hands-on sessions, practicing techniques such as catheter manipulation, mapping, and ablation under the guidance of experienced instructors.

Central to the training is the focus on SVT ablation procedures, with an in-depth exploration of theoretical foundations and practical applications. Live case observations will complement didactic sessions, offering real-time insights into decision-making and procedural nuances. The program also underscores the significance of utilizing advanced imaging modalities, including intracardiac echocardiography, as integral tools for precise guidance during interventions.

Hands-on practice in critical procedural steps, such as catheter navigation through complex cardiac anatomy, will be a key component of the training. Delivered in small groups, the program ensures a personalized and interactive learning environment, fostering in-depth discussions and knowledge exchange among participants.

By the conclusion of this specialized training, interventional cardiologists will emerge with the knowledge and proficiency needed to confidently perform SVT ablation procedures. This unique opportunity invites cardiologists to immerse themselves in the nuanced world of SVT interventions and advance their expertise in the field. Join us in elevating your skills in SVT Ablation – a critical frontier in interventional cardiology

Scientific Committee

Prof. Dr. Emin Evren OZCAN

Prof. Emin Evren Özcan is the director of DEU Heart Rhythm Management Center in Izmir, Turkey, and a European Heart Rhythm Association Certified Electrophysiology Specialist since 2014. With over 400 clinical cases yearly, he actively participates in international organizations, serving as a member of the EHRA Certification Committee and as a board member of the Silk Road Heart Rhythm Association. Dr. Özcan, a Professor of Cardiology at Dokuz Eylul University, has an extensive academic background, including a Ph.D. in non-pharmacological antiarrhythmic therapy and numerous awards for his contributions to the field.

Prof. Dr. Duhan Fatih BAYRAK

Prof. Dr. Duhan Fatih Bayrak is a renowned Cardiologist born in 1975, based in Istanbul, Turkey. He graduated from Istanbul University's Cerrahpasa Medical Faculty in 2000, specializing in Cardiology at Kosuyolu Heart Hospital. With extensive international experience, including a fellowship at the Heart Rhythm Management Center in Brussels, he earned the title of Professor of Cardiology at Acibadem University in 2016. Dr. Bayrak is a certified Cardiac Electrophysiologist and Catheter Ablation specialist, actively involved in consulting and training for companies like Medtronic and Johnson and Johnson.

Scientific Committee

Assoc. Prof. Dr. Baris AKDEMIR

Assoc. Prof. Dr. Barış Akdemir is an accomplished cardiac electrophysiologist and associate professor of cardiology, based in Istanbul and Antalya, Turkey. With extensive education, including a fellowship at the University of Minnesota, he specializes in diagnosing and managing cardiac arrhythmias. He boasts a prolific academic career, contributing to over 50 publications, participating as a speaker in scientific meetings, and serving as a reviewer for esteemed journals. Dr. Akdemir holds various certifications, including the EHRA Electrophysiology Certificate, and actively engages in international roles, such as being the Turkish Ambassador in EHRA Young Electrophysiologists Committee from 2017 to 2020.

Assoc. Prof. Dr. Oğuzhan Ekrem TURAN

Assoc. Prof. Oğuzhan Ekrem Turan is an associate professor and cardiac electrophysiologist at Dokuz Eylül University in İzmir, Turkey, specializing in the diagnosis and management of cardiac arrhythmias. With over 50 publications, he has an extensive academic record and is certified in cardiac electrophysiology and catheter ablation by the European Society of Cardiology. Actively engaged in professional associations, he is a member of the Turkish Society of Cardiology and the European Heart Rhythm Association, and has contributed to educational programs in cardiology.

ACCOMMODATION

KEY HOTEL IZMIR

Set in the heart of the city, Key Hotel is nearby the symbol of the city, the historical clock tower, Konak Square, traditional open air bazaar Kemeraltı and ancient caravanserail Kızlarağası Han. Neighboring Konak Pier mall with shopping and dining facilities, Key Hotel is a few steps to the metro, tram and ferry stations. The city's pearl Kordon, with its charming cafes, stylish restaurants and attractions of night life, begins where Key Hotel is located. Key Hotel is at walking distance to the Cumhuriyet Square and the charming district of Alsancak.

Holding the 1st rank in the city, in terms of guest satisfaction, since the day it was opened, at Key Hotel, we pride ourselves in providing our guests with personalised attention, unparalleled service, cutting edge technology, delectable food in a refined atmosphere.

HOTEL CANCELLATION POLICY

If you wish to cancel or modify your hotel booking, please do not contact the hotel directly, send us a notification by email at: info@adncenterofexcellence.com Cancellations received earlier than 10 days before the beginning of the course are eligible for a full hotel refund. After that deadline, a one-night deposit will be deducted from your refund.

BOOKING POLICY

The deadline for hotel booking is 10 days before the course. Unfortunately, ADN CoE cannot guarantee room availability past that deadline. Bookings are made on a first-come, first-served basis. In case of non-availability, we shall do our best to re-accommodate you in a nearby hotel of equal standard.
