

CTO PCI MASTERCLASS TRAINING

11-12 OCTOBER 2023

Prof. Dr. GABRIELE GASPARINI Prof. Dr. ŞEVKET GÖRGÜLÜ

Assoc. Prof. Dr. KUDRET KESKİN

Seyrantepe Hamidiye Etfal
Training and Research Hospital

11-12 OCTOBER 2023

CTO PCI MASTERCLASS

Training

CTO PCI Masterclass Training will be held at İstanbul Seyrantepe Hamidiye Etfal Training and Research Hospital on 11-12 October 2023, with theoretical lectures, Live-in Box Sessions, and Hands-on Practices in the Meeting room will attend 3 live CTO PCI cases, then Prof. Dr. Gabriele Gasparini, Prof. Dr. Şevket Görgülü and Assoc. Prof. Kudret Keskin will perform a CTO PCI Cases.

On the 2nd day, we will conduct 3 live cases in the İstanbul Etfal Hamidiye Training and Research Hospital Catheter Laboratory and case studies in the meeting room of İstanbul Seyrantepe Hamidiye Etfal Training and Research Hospital. We would be honored by your support and participation in our training to be held in İstanbul.

Our training meeting was planned considering the Ethical MedTech conditions and all necessary applications for Ethical Medtech approvals were made.

CTO PCI Masterclass Training is a special training program where you can progress your knowledge and skills at İstanbul Seyrantepe Hamidiye Etfal Hamidiye Training and Research Hospital. For now, Prof. Dr. Gabriele Gasparini and Prof. Dr. Şevket Görgülü is one of the highest numbers of case series.

Prof. Dr. Gabriele Gasparini is from Humanitas Research Hospital. Since 2008 he has performed as first operator more than 1000 CTO PCI procedures.

Prof. Dr. Şevket Görgülü is from Biruni University University Hospital, a physician expert in the field of CTO.

Assoc. Prof. Kudret Keskin is from İstanbul Seyrantepe Hamidiye Etfal Hamidiye Training and Research Hospital. He is an expert in rhythm management and complex coronary interventions.

With the theoretical lectures that will be covered in detail in this special program and Live case observations, you will be able to learn and practice the CTO PCI process with confidence and participate in live cases in the hybrid room.

The most critical issue in sustainable medical education is the limited ability to practice on simulation devices and the limited opportunities for one-on-one training. The educational opportunities that can be reached can be made with the opportunities of medical devices.

CTO PCI TRAINING

Masterclass

CTO PCI procedure is a complex coronary interventional procedure. Physicians are required to learn step by step within the catheter laboratory from specialist physicians who are currently performing the procedure. Educational learning methods will be Live Case Observation, Video, Lectures, On-site, Hands-on Practice, and Specific groups.

Consistency and determination are essential to developing a successful CTO PCI response program. The best way to do this is with a good CTO cardiac team.

The most important components of the Cardiac team are a good CTO operator, a well-trained CTO Cardiac catheterization personnel, equipment, protocols, awareness of administration and referring physicians, and informing patients. The first of the steps is to learn the CTO PCI Procedure. CTO's procedural skills can be developed through reading, attending courses, observing, and repetitive practice.

Persistence, careful planning, focus, creativity, learning from failures, and tracking procedural outcomes are important.

Another important detail is the training of the catheterization laboratory personnel, the acquisition of the necessary equipment, and the creation of specific protocols for the CTO procedure that can help develop the CTO Program.

Education of the catheterization laboratory staff, obtaining the necessary equipment, and establishing CTO-specific protocols can assist with CTO program development. Also, highlighting the need for a CTO program and demonstrating its feasibility and potential institutional benefits can assist with securing support from the administration. Increasing the awareness of the CTO program can be accomplished through the education of referring physicians, presenting at local and national conferences, and providing patient-centered education.

CTO PCI TRAINING

Masterclass

Participants can learn the basic concepts, principles, theories, guidelines, and terminology used in the CTO PCI procedure. To meet the health needs of the CTO PCI procedure by ensuring the correct identification of CTO PCI patients.

Format

The best format to achieve the objectives of the session will be;

- In-person Live
- Small Group
- Enduring Materials, Self-Study
- Medical Journals, Self-Study
- Performance Improvement
- Point of Care

Learner Engagement

Following methods will this session utilize to engage the learners.

- Case/Problem-Based Learning
- Hands-On/Skill-Based
- Panel Discussion
- Performance/Quality Improvement Process
- Question and Answer
- Small Groups

1. TRAINING DAY

11-12 October 2023

09:00	CTO definition and patient preparation for a CTO procedure
09:30	Assoc. Prof. Kudret KESKIN
09:30	Antegrade CTO crossing
10:00	Prof. Dr. Gabriele GASPARINI
10:00	Antegrade dissection Re-entry
10:30	Prof. Dr. Şevket GORGULU
10:30	Coffee Break
11:00	Retrograde CTO crossing
12:00	Prof. Dr. Şevket GORGULU
12:00	Live-in Box
12:30	Prof. Dr. Gabriele GASPARINI
12:30	Lunch
13:30	Live Case Observation Session 1
15:30	
15:30	Discussion of Live Case 1
15:45	
15:45	CTO PCI Live Case 2 (scrub in)
17:45	
17:45	Discussion of Live Case 2
18:00	
18:00	Evaluation of the day
18:15	
19:00	Training Gala Dinner
21:00	

2. TRAINING DAY

11-12 October 2023

09:00 Live-in Box

10:00 Prof. Dr. Şevket GORGULU

10:00 How to prevent and manage complication in CTO PCI

10:30 Prof. Dr. Gabriele GASPARINI

10:30 Live Case 3 (scrub in)

12:30

12:30 Lunch

13:30

13:30 Live Case 4 (scrub in)

15:30

15:30 Discussion of live case 4

15:45

15:45 Live Case 5 (scrub in)

17:45

17:45 End of Training

18:00

WHO IS ADN CENTER OF EXCELLENCE®

ADN CoEs aim to convey and deliver best practice procedures and information to health professionals from the beginning to the end in the best way, supported by accredited or scientific publications.

ADN CoE's vision is a world in which our training and training clinicians support the delivery of optimal healthcare for all as we train the next generation of clinicians.

ADN CoE's mission is to provide and advance quality learning for healthcare professionals who drive improvements in patient care.

CTO PCI MASTERCLASS TRAINING

About the course

CTO PCI Masterclass Training will be held at İstanbul Seyrantepe Hamidiye Etfal Training and Research Hospital on 10-11 July 2023, with theoretical lectures, Live-in Box Sessions, and Hands-on Practices in the Meeting room will attend 3 live CTO PCI cases, then Prof. Dr. Gabriele Gasparini, Prof. Dr. Şevket Görgülü and Assoc. Prof. Kudret Keskin will perform a CTO PCI Cases.

On the 2nd day, we will conduct 3 live cases in the İstanbul Etfal Hamidiye Training and Research Hospital Catheter Laboratory and case studies in the meeting room of İstanbul Seyrantepe Hamidiye Etfal Training and Research Hospital. We would be honored by your support and participation in our training to be held in İstanbul.

Our training meeting was planned considering the Ethical MedTech conditions and all necessary applications for Ethical Medtech approvals were made.

CTO PCI Masterclass Training is a special training program where you can progress your knowledge and skills at İstanbul Seyrantepe Hamidiye Etfal Hamidiye Training and Research Hospital. For now, Prof. Dr. Gabriele Gasparini, Prof. Dr. Şevket Görgülü is one of the highest numbers of case series. Prof. Dr. Şevket Görgülü is from Biruni University University Hospital, a physician expert in the field of CTO. Assoc. Prof. Kudret Keskin is from İstanbul Seyrantepe Hamidiye Etfal Hamidiye Training and Research Hospital. He is an expert in rhythm management and complex coronary interventions.

With the theoretical lectures that will be covered in detail in this special program and Live case observations, you will be able to learn and practice the CTO PCI process with confidence and participate in live cases in the hybrid room.

Target Audience

CTO PCI Training's primary audience for education.

Primary

- Interventional Cardiologist
- Cardiologists

COURSE CANCELLATION POLICY

Should you wish to cancel or postpone your registration, please notify us by email at: info@adncenterofexcellence.com

Please note that no refund or postponement will be considered for any cancellation received less than 6 weeks before the course starts, even if the Visa application has been denied. Please check our website to see the specific cancellation policy due to the COVID-19 sanitary situation.

INSTRUCTORS

Prof. Dr. Gabriele GASPARINI

Dr Gasparini is specialized in treatment of complex coronary artery disease, such as chronic total occlusions, saphenous vein grafts, bifurcations, left main disease and in management of complications. He is a radialist operator and during last year he started using distal radial approach in complex coronary procedures even with 7fr sheaths.

Dr. Gasparini has significant experience at national and international level in the percutaneous treatment of chronic total coronary occlusions by both antegrade that retrograde approach . Since 2008 he has performed as first operator more than 1000 CTO PCI procedures.

Prof. Dr. Şevket GÖRGÜLÜ

Prof. Dr. Şevket Görgülü is an interventional Cardiologist at Biruni University Hospital. His main areas of expertise are CTO, Angioplasty, Coronary Angioplasty, Structural Heart and Heart Valve Issues. Full member of EuroCTO Club.

Please refer to Professor's CV on our training website.

Assoc. Prof. Kudret KESKİN

Assoc. Prof. Kudret Keskin is a interventional cardiologist at İstanbul Şişli Etfal Hamidiye Training and Research Hospital.

His research interests are interventional cardiology high-risk coronary interventions, chronic total occlusions.

Please refer to Professor's CV on our training website.

VENUE

Seyrantepe Hamidiye Etfal Training and Research Hospital

ACCOMMODATION

DoubleTree by Hilton Istanbul Esentepe

DoubleTree by Hilton Istanbul Esentepe has an excellent use of the city of Istanbul, just a few minutes away from a second. As it is next to the metro station, you can easily reach Taksim Square, Zorlu Performing Arts Center and Cevahir Shopping Center.

- Location within walking distance to public transport.
- Comfortable and luxurious guest rooms with HD TV, air conditioning, mini fridge, kettle, desk, hair dryer, safety deposit box, iron and ironing board.
- Fully equipped Health Club, indoor pool, children's room, Turkish bath, sauna, steam room, massage rooms and 24-hour fitness center.
- Ideal for business meetings, conferences, cocktails, meeting the latest technology, providing a calm working environment, modernly decorated 6 meeting rooms, most of which are daylight.
- Zeytinyalı Restaurant, which offers breakfast, lunch and dinner, is remarkable with its stylish ambience and world tastes.
- Free parking and valet service for staying guests.
- Close distance to most hospitals, aesthetic centers and major international travelers.
- Within walking distance of the city's leading shopping centers such as Cevahir Shopping Center, Zorlu Center and Trump Center.
- Easy access to Taksim Square and Sultanahmet Square by metro.

Useful Information

Transfer

The transfer vehicle will accompany you during the training. The transfer vehicle will depart from the hotel to the hospital at 8:15 on 11-12 October 2023. Please make sure to board the transfer vehicle at 08:15.
