University Hospital**

# MITRAL VALVE INTERVENTIONS TRAINING

MitraClip (Transcatheter Edge-to-Edge Mitral Valve Repair) Training is specifically designed for interventional cardiologists seeking to acquire expertise in managing the MitraClip Procedure. The training program spans a duration of two days and will be conducted on-site. It combines educational instruction with hands-on procedural training.

Mitral valve regurgitation (MR) represents one of the most prevalent valve abnormalities. MR can be categorized into primary-structural, which results from structural irregularities in the mitral valves, and secondary-functional, arising from coaptation defects due to left ventricular dilatation or dysfunction, as well as annular dilatation in atrial fibrillation or flutter. Functional mitral valve regurgitation (FMR) affects approximately 25-30% of patients with low ejection fraction and serves as an independent predictor of heart failure hospitalization and mortality, irrespective of the underlying cause.

While mitral valve surgery remains the standard treatment for symptomatic severe MR, neither mitral valve replacement nor mitral valve repair has demonstrated efficacy in reducing hospitalizations and mortality associated with FMR. The MitraClip Procedure, akin to the surgical Alfieri technique, offers a potential solution. This approach involves bringing the anterior and posterior leaflets of the mitral valve closer together to create a double orifice.

Given the intricate nature of this procedure, it necessitates meticulous execution. Consequently, we have developed specialized procedural training tailored to physicians interested in performing the MitraClip Procedure. This training encompasses theoretical and practical instruction on simultaneous transesophageal echocardiographic imaging, which is crucial during the procedure. Additionally, trainees will receive guidance on transseptal puncture, a critical step in the process. Our MitraClip Procedure training is conducted in small groups, allowing for hands-on practice. It stands as one of the few training programs of its kind worldwide.

# INSTRUCTORS

## **Assoc. Prof. Ismail ATES**

Dr. Ismail Ates, MD, is an accomplished interventional cardiologist with 24 years of experience in the field. He specializes in heart valve interventions, particularly mitral and tricuspid valve interventions, as well as other structural heart diseases. Dr. Ates has demonstrated his leadership abilities by establishing and directing over ten cath labs in his region. In addition to his clinical expertise, Dr. Ates actively contributes to the advancement of his field. He currently serves as a proctor and preceptor for mitraclip and triclip procedures, representing Abbott in the regions of Turkey, Middle East, Middle Asia, and Eastern Europe.

Furthermore, he frequently participates as a faculty member in national and international congresses and meetings, where he delivers presentations and conducts courses both in-person and online.

Dr. Ates holds the esteemed position of Associate Professor of Cardiology in the Faculty of Health Sciences at Bahcesehir University. He is an active member of the Turkish Society of Cardiology, as well as prestigious professional organizations such as FACC, FSCAI, and FESC.

# VENUE

## GOP YENI YUZYIL UNIVERSITY HOSPITAL

## ACCOMMODATION

# AKGUN ISTANBUL HOTEL

Located 4.4 km away from Ayasofya Museum in Istanbul, Akgun Istanbul Hotel offers an outdoor pool. Guests can find a sun terrace, a rooftop terrace, a library, as well as access to a steam bath, a health center, and a spa center on-site.

The 276 rooms feature wireless internet, optional cable TV with movie playback, and a seating area. Additionally, amenities such as an electric kettle, glassware, down pillows, hypoallergenic pillows, and bed linens are provided.

Guests can enjoy breakfast at the restaurant each morning. The bar offers billiards and a terrace. Sky Cafe, located just a 5-minute walk from the hotel, provides access to the Fetihkapi urban rail transportation, which is 500 meters away, and the Istanbul City Walls. Akgun Istanbul Hotel offers a fitness center and facial treatments at no extra cost. Furthermore, it provides children's meals, a special menu, and board games for guests traveling with children.

This hotel is only 1.6 km away from the Chora Museum. It is conveniently located 100 meters from Topkapi Metro Station. Akgun Istanbul Hotel is a short drive from the Suleymaniye Mosque.

#### HOTEL CANCELLATION POLICY

If you wish to cancel or modify your hotel booking, please do not contact the hotel directly, send us a notification by email at: [info@adncenterofexcellence.com](mailto:info@adncenterofexcellence.com) Cancellations received earlier than 10 days before the beginning of the course are eligible for a full hotel refund. After that deadline, a one-night deposit will be deducted from your refund.

#### BOOKING POLICY

The deadline for hotel booking is 10 days before the course. Unfortunately, ADN CoE cannot guarantee room availability past that deadline. Bookings are made on a first-come, first-served basis. In case of non-availability, we shall do our best to re-accommodate you in a nearby hotel of equal standard.

# Useful Information

## Transfer

The transfer vehicle will accompany you during the training. The transfer vehicle will depart from the hotel to the hospital at 8:15 on 11-12 September 2023. Please make sure to board the transfer vehicle at 08:15.

## Training Location
